Metter Police Department
MEMORANDUM

FROM: Captain Kevin Wadley

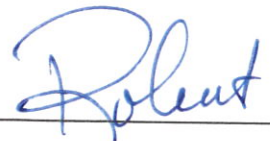

DATE: January 4, 2021

SUBJECT: Annual administrative review of biased based statistics for 2020
(State Standard 1.18c)

On 01-04-2021 Captain Wadley compiled a report from SSI for statistical breakdown of citations, warnings and arrests issued to different categories of persons concerning race and sexual orientation for the calendar year of 2020. This report was generated for all active Metter Police Department certified officers. A review of this report by Captain Wadley indicated that the percentage comparisons were within what is believed to be a normal guideline range and there did NOT appear to be any evidence of bias based policing practices being conducted by any member of the Metter Police Department. Attached is a copy of the statistical report for review and reference.
